

JOGA P V SAI GANESH

Web Development Intern • MERN Stack • AI-Powered Solutions

Pithapuram, Andhra Pradesh 533450 | +91 6301915183 | sganeshjoga@gmail.com | linkedin.com/in/p-v-sai-ganesh-joga

PROFESSIONAL SUMMARY

Motivated B.Tech AI student (2nd Year, CGPA: **8.76**) at Pragati Engineering College, actively learning the **MERN Stack** (MongoDB, Express.js, React.js, Node.js) with a solid foundation in Python, Data Structures, and Generative AI. Built **GRADYX**, an AI-powered examination evaluation system that cut manual grading effort by ~60%. Ranked **Top 160 / 1500+** in competitive programming (Alpha Coder). Hackathon participant at national level. Seeking a Web Development internship to build real-world full-stack projects and accelerate hands-on growth.

TECHNICAL SKILLS

Frontend	React.js (Learning) • HTML5 • CSS3 • JavaScript (ES6+) • Responsive Design
Backend	Node.js (Learning) • Express.js (Learning) • RESTful APIs • Python
Database	MongoDB (Learning) • SQL Basics
MERN Stack	MongoDB • Express.js • React.js • Node.js (Active Learning)
AI / ML	Generative AI • Prompt Engineering • AI Automation • OpenAI APIs
Languages	Python • C • JavaScript
Tools & DevOps	Git • GitHub • VS Code • Excel Automation
CS Fundamentals	Data Structures & Algorithms • OOP • Problem Solving • Competitive Coding

PROJECTS

GRADYX – AI-Based Examination Evaluation System

Academic Project | Python • Generative AI • NLP • Excel Automation • OpenAI APIs

- Engineered an end-to-end AI pipeline that auto-evaluates answer sheets against teacher-defined keys, reducing manual correction workload by ~60%.
- Implemented NLP-based semantic comparison for fair, consistent, and unbiased scoring across all submissions.
- Automated marksheet generation in Excel format, eliminating repetitive data-entry for educators.
- Designed scalable architecture capable of batch-processing 100+ answer sheets simultaneously.

MERN Stack Portfolio Website (In Progress)

Personal Project | React.js • Node.js • Express.js • MongoDB • CSS3 • GitHub

- Building a full-stack personal portfolio to showcase projects, skills, and achievements using the MERN stack.
- Implementing RESTful API endpoints with Express.js and Node.js for dynamic content management.
- Designing fully responsive UI components with React.js following modern web design principles.

EDUCATION

B.E in Artificial Intelligence (AI & CS)

Pragati Engineering College, Surampalem

July 2024 – Present | CGPA: 8.76

Intermediate (10+2) – MPC

SriPrakash Junior College, Payakaraopeta

May 2022 – May 2024 | 923/1000 (92.3%)

Secondary School Certificate (SSC)

SPVN High School, Tuni

June 2021 – Apr 2022 | 543/600 (90.5%)

ACHIEVEMENTS & CERTIFICATIONS

Alpha Coder – Competitive Programming

Pragati Engineering College | October 2025

- Ranked Top 160 out of 1500+ students — demonstrated exceptional DSA and algorithmic problem-solving ability.

Vizag Tri-Mobility Challenge 2026 – Certificate of Merit

NSRIT (IEEE EEE Event), Vizag | February 20–21, 2026

- Awarded Certificate of Merit at a National Level 24-Hour Hackathon organised by the IEEE Electrical & Electronics Engineering department at Nadimpalli Satyanarayana Raju Institute of Technology, Vizag.

Class Representative

Pragati Engineering College

- Managed academic coordination and communication for 60+ students, building leadership and stakeholder management skills.

Certifications

- CodeQuezt #24 – Rank 290 / 500 in Naukri Campus coding challenge, sharpening competitive coding skills.
- Generative Art & Animation Specialist – TechAR Innovations (AI-powered visual creation & creative prompting).
- Web Innovations with Design Thinking & SDGs – Workshop, Pragati Engineering College (Autonomous).

KEY STRENGTHS

- | | |
|-----------------------------|----------------------|
| ◆ Leadership & Coordination | ◆ Fast Self-Learner |
| ◆ Problem Solving | ◆ Time Management |
| ◆ Communication | ◆ Adaptability |
| ◆ Attention to Detail | ◆ Team Collaboration |
